## QuickPoll

### [Dental Treatment During Pregnancy](#)

Although routine oral care during pregnancy has been demonstrated to be safe, and professionally established guidelines recommend prenatal oral care, more than 40% of US pregnant women have not had a dental checkup in the previous year. Additionally, some pregnant women have been declined dental care due to pregnancy.

Please take a few moments to complete this [5-question quick poll](#) to help us gather information on your practices regarding prenatal oral care.
