For the next few questions think about the Refer→Go→Quit Smoking Cessation Study you have enrolled in to help your patients quit smoking using the online website.

Indicate your belief about the following questions:	Strongly Agree	Agree	Neither/ Nor Disagree	Disagree	Strongly Disagree
12. I believe that my patients will be willing to be referred					
13. I believe my patients, once referred, will go					
14. I believe that the online educational system will be of value to my patients					

### QUESTIONS FOR INTERVENTION ONLY

15. After you refer patients to the project, your patients can choose whether or not they visit the website. To encourage them, we will send a personalized message from you to the patients you refer. This message will be sent from an entirely automated system; therefore, patients will not be able to respond to you directly.

**Please edit the brief, automated email message that you would like your patients to receive after your referral. TEXT IN THE BOX BELOW WILL BE EDITABLE BY PROVIDER**

As we discussed in the office, I feel the [www.Decide2Quit.org](http://www.Decide2Quit.org) website on tobacco cessation would be helpful to you. Please review the website and we can discuss in more detail at your next office visit.

**If your patient does not visit the website within 2 weeks of your referral, we can send another automated message from you. Please edit the text you would like to send patients who have not logged in. TEXT IN THE BOX BELOW WILL BE EDITABLE BY PROVIDER**

Quitting tobacco will be one of the most important decisions you can make for your health. During your last visit we discussed [www.Decide2Quit.org](http://www.Decide2Quit.org). I encourage you to review the website for more information. We can discuss any questions you may have at your next office visit.

**AFTER EDITING THE TEXT, THE PROVIDER WILL CLICK A BUTTON TAKING THEM TO A PAGE DISPLAYING THE MESSAGES THEY EDITED/CHOSE. THE TEXT FOR THAT PAGE SAYS:**

Below are the messages that will be emailed to your patients. Would you like to:

- a. Further edit the messages **IF YES, SAVE EDITED TEXT AND REINSERT IN QUESTION 15 FOR FURTHER EDITS**
- b. Approve messages **IF YES, CONTINUE TO QUESTION 16**

16. We have designed several Virtual Patients to provide you with tips to help your patients quit smoking. You will choose one Virtual Patient to appear on your Refer-A-Smoker homepage. Over the course of the project, the Virtual Patient will provide new information to you based on the number of patients that your practice refers to the system. Furthermore, the appearance of your Virtual Patient will change based on patient referrals made by your practice, e.g., the more patients referred by your practice the healthier your Virtual Patient will be. Please choose one of the Virtual Patients below to appear on your homepage:

Virtual Patient 1: A forty year old female presents as a new patient. She smokes ten cigarettes a day and has been diagnosed in the past with chronic periodontitis. Her last dental visit was three years ago and she has recently noticed that some of her teeth are loose. She wants to quit smoking, but her husband is also a smoker and she is concerned about gaining weight.

Virtual Patient 2: An adult male in his early thirties presents in the office with a Chief Complaint of stained teeth. He has been smoking a pack a day for ten years.

Virtual Patient 3: Sixty-five year old obese, male with hypertension is concerned about a white lesion he found in the back of his throat. He has been smoking cigarettes on and off for forty years. He prefers smoking cigars.

Virtual Patient 4: A twenty five year old professional, female presents to dental office complaining of painful bleeding gums. She just found out she is pregnant. She wants to quit smoking out of concern for her baby.
